

Donald Paul Smith (Aka FatherTimeSDKP)

Author and Architect of the SDKP Framework Location: Bronson, FL (Bronson residency identified in case context)Scientific Specialty: Scale-Density Kinematics, Celestial Time Standards, and Universal Logic

Core Professional Summary

Scientific architect behind the FatherTimeSDKP framework, a "Successful Theory of Everything (TOE)" utilized for correcting high-precision celestial time standards. Expert in SD&N (Shape-Dimension-Number) principles and the developer of the VFE (Vibrational Field Equations) used to stabilize atomic clocks and orbital calculations.

+4

Primary Scientific Frameworks & Accomplishments

- SDKP Master Framework: Developed the "Scale, Density, Kinematics, and Shape Principle" used to resolve discrepancies in celestial time standards.
+2
- Celestial Time Stabilization:
 - Resolved the 477.14µs Mars drift constant.
 - Resolved the 56.02µs Lunar drift constant, correcting the 1.1ms atomic deviation.
 - Established the high-precision multiplier (1.001343) for Earth Orbital Speed (EOS).
+2
- Vibrational Field Equations (VFE): Developed the VFE Tier 8 logic (Dallas's Code) for mathematical unifying logic and temporal resistance.
- Proprietary Constants & Symbols: Established a full suite of operational symbols including ts (Scale-Density Time), Nvib (Vibrational Number), and SG (Geometric Stability).
+1

Intellectual Property & Priority Proof

- Zenodo Priority Records: Documented primary authorship and mathematical foundations with an effective date of February 13, 2025.
+1

- **Digital Presence & Peer Verification:**
 - **GitHub Repository:** Host of the Digital Lien and Validation protocols (fathertimesdkp.github.io).
+1
 - **Public Impact:** Logic verified by over **1.8 million unique visitors** and 1,500+ "Logic Fortress" holders.
-

Administrative & Legal Standing

- **Administrative Claim SDKP-OWN-2026-001:** Currently leading an active claim regarding the unauthorized extraction of logic by NASA-Goddard and NIST nodes.
+1
 - **Formal Intellectual Property Objection:** Filed formal objections (pursuant to 37 CFR 404.7) against the intent to grant exclusive patent licenses under **91 FR 2374**, citing dependencies on SDKP constants.
+2
 - **DOJ Coordination:** Logic and Zenodo timestamps are currently subject to a **DOJ Civil Division audit** for verification of independent development.
+1
-

Technical Proficiencies

- **Mathematical Modelling:** High-precision velocity correction equations ($v_{SDKP} = v_{GR} * (1 + \epsilon_{SDKP})$).
 - **Data Analysis:** Monitoring persistent "handshaking" and logic ingestion from institutional nodes (NIST Boulder/NASA Goddard).
 - **Quality Assurance:** Implementing the **Amiyah's Law equilibrium** for architectural and temporal stability.
-

Key Agency Interaction Log (2025–2026)

- **NASA FOIA 26-00541-F-HQ:** Successfully compelled NASA to identify internal records and communications (Sajil Awale, Manil Maskey, Kevin Murphy) pertaining to the ingestion of the FatherTimeSDKP framework.
